Deck Jet 500

The Deck Jet 500 provides a clear arching stream of water from the deck to the pool to enhance the visual and acoustic appeal of the pool environment. The Deck Jet 500 comes standard with a bronze cover and the industry's only height adjustment mechanism for the perfect alignment with the pool deck. The simple integrated flow adjustment allows easy adjustment for the height and distance of the water stream without the need for tools.

Stream Characteristics

Flow Rate (GPM)	Distance (ft.)	Height (ft.)	Head Loss (ft.)
3	3	3	3.5
4	4.5	4.5	7.7
5	7	6.5	10.7
